EDUCATION

BANARAS HINDU UNIVERSITY, VARANASI

2024-2026

Masters in computer application (MCA)

ARYABHATTA KNOWLEDGE UNIVERSITY, PATNA

2021-2024

Batchelors in computer application (BCA)

ABOUT ME

Motivated and detail-oriented Computer Science Master's student at Banaras Hindu University (BHU) with a strong foundation in Java, Data Structures & Algorithms (DSA), and frontend development. Passionate about problem-solving and building efficient, scalable applications. Possess strong leadership qualities, with experience in team collaboration and project management. Eager to leverage my technical skills and leadership abilities to contribute to innovative and impactful projects.

SKILL

Languages: Java, Python, C, JavaScript, HTML
Databases/OS: MySQL, Windows, MacOS, Linux

• Libraries : React , JQuery

• Framework: Pandas, NodeJS, Tailwind, Bootstrap

Soft Skills: Critical Thinking, Problem Solving and Effective Communication

WORK EXPERIENCE

Aditya Vision Limited - Project Intern

JAN 2024- APR 2024

- Worked on a Smart Billing Management System project.
- Focused on the design aspect using CSS and its framework, ensuring an intuitive and user-friendly interface.
- Collaborated with a team, actively contributing to the project's development cycle.
- Enhanced both functionality and user experience of the project.
- Teamed up with cross-functional groups to roll out a project management tool that boosted communication and task tracking, resulting in a 25% acceleration in project delivery and significantly strengthened team cohesion
- Improved problem-solving skills and adaptability in real-world software development scenarios.

PROJECTS

Smart Billing Managment System

FEB 2024-MAR 2024

- Collaborated with a team to develop an efficient and user-friendly billing solution.
- Primary focus on frontend-oriented designing, ensuring a seamless and visually appealing user interface.
- Enhanced skills in UI/UX design, responsiveness, and user experience optimization.
- Learned best practices in software development through teamwork and collaboration.
- Improved problem-solving abilities in real-world software development scenarios.
- Gained hands-on exposure to project execution and development cycle.

Scientific Calculator - Java Swing

DEC 2024

- Explored and implemented various aspects of Java programming, including GUI development, event handling, and object-oriented principles.
- Gained hands-on experience in building interactive applications.
- Optimized code efficiency and managed user inputs effectively.
- Integrated advanced mathematical functions and ensured a responsive interface.
- Strengthened problem-solving skills through practical application.
